

# 2014 *Iron & Steel Technology* Index

## AIST News and Miscellaneous

- 2013 CRU North American Steel Conference Review — February, p 199
- 2013 EAF Study Tour — Buenos Aires, Argentina — January, p 126
- 2013 John F. Elliott Lectureship, The: Five Countries and 13 Universities — April, p 38
- 2014–2015 AIST Executive Officers and Board of Directors — June, p 44
- 2015–2016 AIST Foundation Call for Scholarship Applications — August, p 36; September, p 38; October, p 62; November, p 34; December, p 32
- AIST 2104 Basic Oxygen Furnace Roundup — April, p 216
- AIST 2014 Canada and U.S. Cokemaking Byproducts Roundup — March, p 244
- AIST 2014 Canada and U.S. Rod, Bar and Long Products Roundup — August, p 210
- AIST 2014 Coke Oven Battery Roundup — March, p 104
- AIST 2014 Electric Arc Furnace Roundup — January, p 130
- AIST 2014 North American Blast Furnace Roundup — March, p 258
- AIST 2014 North American Galvanizing Lines Roundup — February, p 102
- AIST 2014 North American Hot Strip Mill Roundup — November, p 138
- AIST 2014 North American Plate/Steckel Mill Roundup — November, p 158
- AIST 2014 North and South American Continuous Caster Roundup — July, p 132
- AIST 35-Year Life Member: Norm Lockington — July, p 186
- AIST 37-Year Life Member: Aldo Longo — January, p 212
- AIST 37-Year Life Member: Claude Gentaz — November, p 182
- AIST 37-Year Life Member: John T. Boeing — September, p 176
- AIST 38-Year Life Member: Douglas A. Hug — May, p 372
- AIST Congratulates the 2014 Reliability Achievement Award Winners — March, p 263
- AIST Italy Steel Forum 2013 Review — January, p 176
- AIST Leadership Conference Review — February, p 176
- AIST Mexico Member Chapter Hosts 6th CONAC Congress — July, p 190
- AIST President's Message — January, p 3; May, p 38; November, p 3
- AISTech 2014 Conference and Exposition Information — May, p 39
- AISTech 2014 Conference and Exposition Retrospective — August, p 47
- AISTech 2014 Preliminary Information — January, p 96; February, p 113; March, p 113; April, p 49
- AISTech 2014 Exposition Floor Plan — January, p 108; February, p 113; March, p 113; April, p 49; May, p 128
- AISTech 2015 Call for Papers and Presentations — May, p 123; June, p 115; July, p 115; August, p 180
- AISTech 2015 Exposition Floor Plan — May, p 278; June, p 104; July, p 120; August, p 186; September, p 136; October, p 168; November, p 100; December, p 104
- AISTech 2015 Preliminary Information — November, p 97; December, p 99
- Call for Entries: AIST Energy Achievement Award — February, p 173; April, p 213; June, p 134
- Call for Entries: AIST Project Excellence Award — March, p 257; May, p 364; July, p 154
- Call for Entries: AIST Reliability Achievement Award — January, p 114; March, p 262; May, p 345
- Call for Nominations: AIST Board of Directors Awards — June, p 113; July, p 101; August, p 175; September, p 127; October, p 159; November, p 119
- Danieli Year in Review 2012–2013 — January, p 115
- Developments in the North American Iron and Steel Industry 2013 — April, p 192
- Dr. Lauri E.K. Holappa Completes the AIST 2012 Elliott Lecture Series — October, p 216
- Emerging Leaders Alliance Conference Wrap-Up — January, p 129
- Essar Steel India Ltd. Plant Focus — February, p 146
- Galvatech 2015 and CHS<sup>2</sup> 2015 Preliminary Information — November, p 131; December, p 119
- Incoterms — Rules for International Trade — December, p 19
- International Steel Academy: Raigarh Review — March, p 264
- Interview With 2014–2015 AIST President Glenn Pushis, An — June, p 41
- Interview With Dale E. Heinz, 2013–2014 AIME President — July, p 108
- Leveraging the Power of Visualization to Advance Steel Manufacturing — October, p 148
- Life Members: Tom Graham Sr. and Tom Graham Jr. — March, p 280
- MS&T'13 — Materials Science & Technology Conference & Exhibition Review — February, p 160
- MS&T14 Conference & Exhibition Preliminary Information (Including Steel-Related Papers) — August, p 197; September, p 101; October, p 121
- SMU Steel Summit 2014 Wrapup — November, p 129

## Technical Articles

## [A]

- Accommodating Iron-to-Carbon Interface Issues in the Blast Furnace Hearth — A.J. Dzermejko, March, p 41
- Advanced Blowing and Stirring Conditions in the BOF Process — H-J. Odenthal, P. Grygorov, M. Reifferscheid and J. Schlüter, April, p 143
- Advanced Load-Shedding Scheme With Integrated Protection, Control and Automation Systems Utilizing IEC 61850 Ethernet Technology — E. Stranz, M. Eckl, F. Becker and R. Preston, September, p 79
- Application of a Mercury Variance Plan of Study: A Case Study — J. Skubak, M. Grabigel and M.A. Amendola, May, p 321
- Application of Hot Rolling Lubrication on a Reversing Coil/Plate Mill — Q. Yu and A. Beard, November, p 52
- Application of Thermodynamic Analysis for Developing Strategies to Improve BOF Steelmaking Process Capability — K. Chattopadhyay and S. Kumar, April, p 170
- Application Results of Mill Stabilizing Device for Reduction of Mill Vibration in Hot Finish Rolling — F. Beddings, H. Furumoto, K. Hayashi, T. Owada and S. Kanemori, November, p 68

## [B]

- Bar Code Identification of Pipes and Tubes — D.L. Anderson, August, p 161

## [C]

- CFD Investigation of the Effects of Iron Ore Reducibility and Coke Reactivity on Blast Furnace Operation — D. Fu, Y. Chen, Y. Zhao, J. D'Alessio and C.Q. Zhou, December, p 57
- Challenges Facing the Chinese Steel Industry, The — J. Li, *2014 AIST International Alliance Lecture*, August, p 91
- Characterization of Zinc Coating Deposited Using Electrolytic Plasma Technology — P. George and E.O. Daigle, *AIST Transactions*, September, p 208
- Coil-to-Coil Joining With Laser Welding in Particular for “Sophisticated Steel Grades” — R. Wallmeyer and M. Neumann, February, p 96
- Cold Finishing Chain Track Technology: Pushing the Limits of Coil-to-Bar Drawing — K. van Teutem, August, p 144
- Complex Profile Gauging — P.J.S. Pugsley, August, p 168
- Continuous Slab Casting Superheat Control at SSAB Mobile — Y. Wang, S. Abraham, R. Bodnar, S. Richardson and C. Rawlinson, December, p 66

- Control of the Oxygen State of the Slag and Metal During the Final Stage of Melting in the EAF Fed With a 100% DRI Charge — R.L. González, F.L. Acosta, D. Kundrat and A. Wyatt, January, p 57
- Cooling Rate Effects on the As-Cast Titanium Nitride Precipitation Size Distribution in a Low-Carbon Steel — J. Stock, C.M. Enloe, R.J. O'Malley, K.O. Findley and J.G. Speer, *AIST Transactions*, June, p 180
- Curse to Cure: The Utilization of Titanium-Bearing Products in Blast Furnace Ironmaking — S. Street, C. Copeland and E. Worral, March, p 71

## [D]

- Determination of the Intrinsic Value of Ore-Based Metallics — J.A.T. Jones, January, p 50
- Development and Application of Discrete Element Charging Burden Model for Blast Furnace — C-K. Ho, S-W. Du, C-S. Chou and C-H. Tung, March, p 88
- Development of an Inclusion Characterization Methodology for Improving Steel Product Cleanliness — S. Abraham, J. Raines and R. Bodnar, *AIST Transactions*, February, p 219
- Development of the Direct Evacuation Control System for Modern Electric Arc Furnace — J. Belous and M. Marz, May, p 312
- Development of Water-Based Lubricants for the Production of Seamless Pipe, The — P. Gandy, August, p 154
- Digital Image Correlation Studies of Advanced High-Strength Steel Tensile Deformation — L.G. Hector Jr., V. Savic, A.K. Sachdev and J.J. Coryell, *AIST Transactions*, November, p 209

## [E]

- Effect of Backup Roll Wear on Hot Band Flatness and Crown — E. Nikitenko, November, p 61
- Effect of Hydrogen on Mold Heat Removal at a Rounds Caster — T.J. Piccone, M. McClymonds and K.H. Hashimoto, July, p 45
- Effects of Dezincification on Continuous Caster Spray Nozzle Assemblies — A.M. Dalley, T.T. Natarajan, R.M. Koenig and E.K. Borges, September, p 90
- EM Inspection of Microstructure During Hot Processing: The Journey From First Principles to Plant — A.J. Peyton, C.L. Davis, F.D. van den Berg and B.M. Smith, November, p 73
- Everything You Want to Know About Overhead Crane Hoist Brakes — M.D. James, June, p 71
- EVRAZ Pueblo — Best Practice Operation With SIMET-AL EAF Ultimate Technology: Seven Years of Records in the Making — D. Ellis, V. Varick, M. Abel and T. Daum, January, p 39

## [F]

- Fall Prevention Systems for Flatbed Trailers — M. Seals and A. Druschitz, June, p 55
- Flammability Limits for Oxygen Steelmaking Offgas Mixture and Their Implementation in a Steelmaking Shop — Y. Li and G. Trefa, April, p 157
- Flow Control Refractory Design Optimization of Submerged Entry Nozzles by Simulation Technology — G. Hackl, Y. Tang, G. Nitzl, D. Chalmers, J.D. Doricott and L.J. Heaslip, September, p 47
- Fundamental Evaluation of Natural Gas Co-Injection With Coke Oven Gas or Coal — L.W. Lherbier Jr. and M.F. Riley, May, p 292

## [H]

- Hazard Protection Glass Design Specification for Use in Safeguarding Personnel Against Molten Metal Steam Eruptions — C.E. Tomazin, P. Ennis, R.P. Roudabush, C.E. Davis and K.A. Marchand, June, p 89
- How to Use Automation to Improve Productivity and Quality in Your Rolling Mill — S. Fernández and D. Sánchez, August, p 147

## [I]

- Impact of Cokemaking Technology on a Steel Plant's Carbon Footprint — C. Sharp, Y. Gordon, S. Liu, P. Towsey and I. Cameron, May, p 303
- Impact of Titanium on Skull Formation in the Blast Furnace Hearth, The — Y. Zhao, March, p 95
- Implementation of High-Turbulence Roll Colling at ArcelorMittal Dofasco's Hot Strip Mill — Z. Koont, A. Ianos, G. Gebara, P. Van Poecke, H. Uijtdebroeks and J.J. Fitzpatrick, November, p 43
- Importance of Fluid Flow and Heat Transfer Modeling for Understanding Ironmaking and Steelmaking Processes — K. Chattopadhyay, *AIST Transactions*, April, p 277
- Inclusion Engineering and the Metallurgy of Calcium Treatment — S. Abraham, R. Bodnar and J. Raines, July, p 57
- Increased Productivity of API-X Steel Grades at ArcelorMittal Flat Carbon Products by Reducing Sources of Hydrogen During Melting and Refining — R.L. González, F.L. Acosta, D. Kundrat and A. Wyatt, October, p 93
- Increasing Mill Production Using Medium-Voltage AC Drive and Active VAR Compensation — M. Lara, S. Nelko, K. Fukuma and H. Hosoda, September, p 56
- Initial Alumina Formation: Some Additional Thoughts Based on Laboratory and Steel Plant Findings — W. Tiekink, *AIST Transactions*, August, p 294

- Introducing Power System Event Report Data Into Plant Historian Systems — M. Rourke, M. Daliparthi, D.C. Mazur and R. Entzminger, December, p 48
- Introducing the BOF Blowing Process Model — A Tool for Practice Improvement — D. Guo, D. Swickard and J. Bradley, April, p 131
- Investigation of Different Equipment Setups for Ammonia Wash and Desulfurization — F. Sowa and M. Wolf, March, p 58
- Investigations on Internal Crack Propagation in High-Niobium Steel Slabs During Cooling and Reheating at ArcelorMittal Dofasco — C. Chang and J. Sengupta, October, p 75

## [L]

- Life Extension of BOF Lower Hood at U. S. Steel Canada — Lake Erie Works via Engineering and Design Changes — S.K. Saha, D.J. Radakovic and T.A. Walden, April, p 181
- Lubrication in the Cold Rolling Process Described by a 3D Stribeck Curve — J.B.A.F. Smeulders, February, p 37

## [M]

- Material Handling: Focus on Safety With the Customization of Lifting Devices and Plant-Wide Evaluations — J. Novak, K. Rounds and L. Arnold, June, p 62
- Meltshop Baghouse Fan Blade Upgrade Project — M. Drymalla, A. Spece, C. Prior, D. Rappolee and F. Preis, January, p 79
- MicroNiobium® Steelmaking Alloy Approach in 1080 Wire Rod — S.G. Jansto, October, p 84
- Model Studies on Slag Metal Entrainment in Gas-Stirred Ladles — A. Senguttuvan and G.A. Irons, *AIST Transactions*, January, p 230
- Multi-Variable Shape Actuation Capabilities Envelopes of Vertical-Stack Mills — M. Zipf, February, p 46

## [N]

- New Generation and a New Process, A — An Application That Can Do for Technicians What CAD Has Done for Engineering — B.E. Jenson and M.K. Alligood, December, p 39

## [O]

- On the Optimization Procedure of Rolling Mill Design — A Combined Application of Rolling Models — R.M. Guo, November, p 80

## [P]

- Path to Industrial Processing of Advanced High-Strength Steel in Continuous Galvanizing Lines, The — K. Kahoul, February, p 63
- Perspectives on Industry/University Partnerships to Support Innovations in the Steel Industry — D.K. Matlock, *2014 AIME Keynote and AIST J. Keith Brimacombe Memorial Lecture*, August, p 75
- Preparing Your Electrical System for Disaster Recovery — C. Kennedy, September, p 67

## [R]

- Radio-Based Distance and Positioning Systems Applied to Tracking and Safety Applications in the Tubular Industry — D. Brunnengraeber and E. La Bruna, August, p 135
- Real-Time Water Detection in EAF Steelmaking — D.J. Zuliani, V. Scipolo, M. Khan, O. Negru and W. Bilski, January, p 84

## [S]

- Safe and Productive Electric Arc Furnaces — S. Miani, A. Fornasaro, L. Gemo and M. Milocco, January, p 68
- Safety First: Assessment of Musculoskeletal Injury Risks Among Steel Manufacturing Workers, The — X. Ning, D.E. Della-Giustina and B. Hu, *2013 Don B. Daily Memorial Fund Recipient*, October, p 66
- Safety First: Enhancement of Steel Industry Safety Training Through Incident Visualization Development — J. Moreland, S. Nakayama, J. Zhang, S. Yang and C.Q. Zhou, *2013 Don B. Daily Memorial Fund Recipient*, November, p 38
- Safety First: Enhancing Safety of Industrial Tensile Testing Machines — D. Penny III, T. Davis, G. Leam Scullin, E. Shedlarski and A. Genau, *2013 Don B. Daily Memorial Fund Recipient*, August, p 42
- Safety First: Preventing Hand Injuries in the Steel Industry Through Assessment, Awareness and Training — E.H. Maples, *2012 Don B. Daily Memorial Fund Grant Recipient*, January, p 32
- Safety First: Student-Based Research Project to Foster Occupational Safety Career Pathways for the Steel and Other Industries — E. Vasko, L. Waller, D. Estep, T. Sabo and C. Synn, *2013 Don B. Daily Memorial Fund Recipient*, September, p 42
- Semi-Analytical Solution of von Karman Rolling Equation With Roll Indentation, A — Part II — R-M. Guo, February, p 79
- Slidegate Dithering Effects on Transient Flow and Mold Level Fluctuations — R. Liu, B.G. Thomas, L. Kalra, T. Bhattacharya and A. Dasgupta, July, p 87

- Stopper Rod Dithering Trials at ArcelorMittal Dofasco's No. 1 Continuous Caster — S.D. Chung, J. Sengupta and M. Afnan-Alaie, July, p 77
- Study of an Improved Overhead Crane Wheel Flange Lubrication System, A — A.J. Heckler, B.M. Collins, A. Minck Lachman, F.H. Guzzetta and T. Coyle, September, p 74
- Study of the Optimum Condition for Dephosphorization of Hot Metal — C-H. Wee, J-O. Jo, J-M. Hong, J-T. Choi, K-Y. Lee and P.C. Pistorius, October, p 107

## [T]

- Taper Wheels Should Not Be on EOT Cranes — C.A. Totten, June, p 82
- Thermodynamic Evaluation of Inclusion Formation and Nozzle Clogging During Slab Casting — K. Chattopadhyay, S. Mostaghel and S. Kumar, October, p 100
- Thermodynamic Model and Database for Oxysulfide Inclusions Containing Ca-Mn-Si-Al-O-S and Its Application to Prediction of Inclusions Evolution in Steels, A — R. Piao, D-H. Woo, H-G. Lee and Y-B. Kang, *AIST Transactions*, July, p 218
- Toward Interrelationship of Microstructural Evolution and Yield Strength Anisotropy in High-Strength Line Pipe Steels — P.K.C. Venkatasurya, R.D.K. Misra, M.D. Mulholland, M. Manohar and J.E. Hartmann, October, p 112
- TWIP+TRIP Plasticity-Enhancement Effect in Ultrahigh-Strength Multi-Phase Steel — S. Lee and B.C. De Cooman, *AIST Transactions*, October, p 236

## [U]

- Unifying Spatial Curvature Framework for Coordinated Pass Scheduling, Shape Targeting and Mill Setup, A — M. Zipf, December, p 86
- Upgrade of the Burns Harbor Plate Mill Heat Treat Facility — M.K. Frankovich, B.C. Felton and V. Baum, May, p 281

## [W]

- WAVE Mold for Billet Casting Applications — I. Bakshi, M. Garcia and D.P. Lorento, July, p 71
- Wet Flash Cooling®: A Flexible and High-Performance Quenching Technology for Improved AHSS — D. Delaunay, E. Magadoux and S. Mehraïn, February, p 74
- Work Roll Cooling Operation and Design Optimization Based on Mathematical Modeling and Heat Transfer Principles — V.H. Hernandez-Avila and S. Kumar, December, p 77

## [A]

- Abel, M.; Ellis, D.; Varick, V.; and Daum, T. — EVRAZ Pueblo — Best Practice Operation With SIMETAL EAF Ultimate Technology: Seven Years of Records in the Making, January, p 39
- Abraham, S.; Raines, J.; and Bodnar, R. — Development of an Inclusion Characterization Methodology for Improving Steel Product Cleanliness, *AIST Transactions*, February, p 219

### Statement of Ownership, Management and Circulation (Required by 39 U.S.C. 3685)

| 1. Title of publication: <i>Iron &amp; Steel Technology</i>   | 15. Extent and nature of circulation  | Average No. Copies of Single Issue | Actual No. Copies |
|---|---|------------------------------------|-------------------|
| 2. Publication No.: 1547 – 0423   | Each Issue  | Published                          |                   |
| 3. Date of filing: October 1, 2014  | During  | Nearest to Filing Date             |                   |
| 4. Frequency of issue: Monthly  | Preceding 12 months   |                                    |                   |
| 5. No. of issues published annually: 12   |   |                                    |                   |
| 6. Annual subscription price:   | A. Total No. of copies printed (net press run)  | 11,734                             | 15,010            |
| U.S., Canada and Mexico—US\$165.00  | B. Paid circulation   |                                    |                   |
| All other countries—US\$205.00  | Mail subscriptions  | 11,307                             | 14,882            |
| 7. Location of known office of publication: 186 Thorn Hill Road, Warrendale, PA 15086   | C. Total paid distribution  | 11,307                             | 14,880            |
| 8. Location of the headquarters of general business offices of the publisher: 186 Thorn Hill Road, Warrendale, PA 15086   | D. Non-requested distribution by mail, carrier or other means. Samples, complimentary and other free copies | 427                                | 219               |
| 9. Names and addresses of publisher, editor and managing editor: publisher, Ronald E. Ashburn; editor, Karen D. Hickey; managing editor, Amanda Blyth, 186 Thorn Hill Road, Warrendale, PA 15086  | E. Total non-requested distribution   | 427                                | 219               |
| 10. Owner: Association for Iron & Steel Technology, 186 Thorn Hill Road, Warrendale, PA 15086   | F. Total distribution   | 11,734                             | 15,010            |
| 11. Known bondholders, mortgagees and other security holders owning or holding 1% or more of total amount of bonds, mortgages or other securities: None   | G. Copies not distributed   |                                    |                   |
|   | Office use, leftover, unaccounted, spoiled after printing   | 100                                | 100               |
| 12. For completion by non-profit organizations authorized to mail at special rates (Section 423.12 DMM only): The purpose, function and non-profit status of this organization and the exempt status for federal income tax purposes have not changed during preceding 12 months. | H. Total net press  | 11,834                             | 15,110            |
|   | I. Percent paid and/or requested circulation  | 96.36%                             | 99.14%            |

I certify that the statements made above are correct and complete.

Karen D. Hickey, editor
