

ADVANCING THE TECHNICAL DEVELOPMENT, PRODUCTION, PROCESSING AND APPLICATION OF IRON AND STEEL

Pittsburgh Member Chapter Scholarship Questionnaire

Applicant Name: _____ Date: _____

List previous or current **work experiences** (focus on intern/co-op assignments).

Dates	Employer	Description of your duties and accomplishments

List any **extra-curricular activities** in which you participated (community service, volunteer work, etc.), including length of service.

Dates	Hrs./Month	Describe involvement and responsibilities

List any **honors/scholarships** not listed in questions #1 and #2, including date of the award.

Essay Question: Select **ONE** of the topics.

The essay question is critical to the selection of the finalists for the awards. Take time to organize your thoughts. Provide your answers in typewritten form in 500 words or less. Type the essay question you are answering at the top of the essay. Attach the essay to your completed application

1. Describe in detail an accomplishment that you have achieved while you have been a student. Why were you successful? How will your success influence your future plans as an engineer or an engineer in the steel industry?
2. Describe in detail your strengths and interests. Describe how you will apply your skills to a career in the steel industry or as an engineer.
3. Describe in detail the challenges that face the steel industry. What opportunities exist for graduates to improve the success of companies within the industry?
