

AISE Steel Technology Index for 1999

(formerly *IRON AND STEEL ENGINEER*)

LIST OF SUBJECTS

- A
- A 161-Mw cogeneration plant at U.S. Steel, Gary Works
MORONEY, R. M. and OLSON, R. C., Dec., p 53
- A monitoring instrument for the detection and early warning of resonant oscillation of servovalves in hydraulic systems
HARDWICK, B. R., Nov., p 49
- Abstracts of Papers to be Presented at Technical Sessions, 1999 Iron and Steel Expositionⁱⁱ and AISE Annual Convention, Sept., p 113
- A-c and d-c furnaces, Excerpt from The Making, Shaping and Treating of Steel: Electrical considerations for
BOWMAN, B., May, p 62
- A-c drive conversion at Bethlehem Steel Sparrows Point, No. 1 halogen tinning line
KROEBER, W. J., MAROFSKY, M. A. and HARRISON, A. J., Apr., p 43
- A-c flux vector drives, Transducerless control of
GREEN, R. M., Apr., p 56
- A-c motors?, Bearing currents A danger to inverter-fed
BINDER, A. J. F., AUST, R. P. and SCHREFFER, A., July, p 47
- A-c or d-c: Which motor is right for you?
MELFI, M. J., June, p 73
- Acid recovery, New approach for
OLSEN, D. R. and BLUMENSCHNEIN, C. D., Jan., p 46
- Adjustable frequency drives, Motor insulation survival with new
BELL, S. and SUNG, J., Apr., p 60
- Advances in monitoring scrap steel for radioactivity
LaMASIRA, A., May, p 48
- AISE, 71 Members Complete 30 Years with, Jan., p 23
- AISE Annual Convention, 1999 Iron and Steel Expositionⁱⁱ and, Sept., p 75
- AISE Annual Convention Abstracts of Papers to be Presented at Technical Sessions, 1999 Iron and Steel Expositionⁱⁱ and, Sept., p 113
- AISE Annual Convention Chairmen, 1999 Iron and Steel Expositionⁱⁱ and, Sept., p 109
- AISE Annual Convention Exhibitor List, 1999 Iron and Steel Expositionⁱⁱ and, Sept., p 187
- AISE Annual Convention Technical Program, 1999 Iron and Steel Expositionⁱⁱ and, Sept., p 77
- AISE District Section Officers, 1999-2000, Oct., p 52
- AISE Headquarters Staff, Apr., p 26
- AISE Kelly Award winners selected, Oct., p 57
- AISE Officers and Directors, 1999, Jan., p 18
- AISE President, James F. Walsh Elected 2000, Oct., p 51
- AISE Reliability Achievement Award, Dec., p 57
- AISE salutes National Engineers Week, Feb., p 9
- AISE Standing Committees, 1999, Jan., p 22
- AIISI Technology Roadmap: Enhancing the quality of steel
McMANUS, G. J., Apr., p 27
- AK plus Armco equals, What
McMANUS, G. J., Aug., p 60
- AK Steel's 1.8 million ton/year carbon and stainless steel cold finishing facility at Rockport
SAMWAYS, N. L., Apr., p 32
- Alternative ironmaking presented at Trinidad Seminar, Recent developments in
FONNER, F. E., June, p 68
- Amanda taphole repair
WALSH, M. E., WISE, D. A., SORTISIO, P. D. and TALAAT, T. M., Sept., p 31
- Analysis techniques and countermeasures for chatter on tandem cold mills and temper mills at LIV Steel
SILVERSTEIN, B. R. and ARTER, R. K., Sept., p 51
- Application of endless bar rolling system at Tokyo Steel
MATSUO, G., OKAWA, S. and CHATTERJEE, R. K., Mar., p 27
- Application of vibration monitoring to cold mill processes
HARDWICK, B. R. and DUNLOP, T. S., Jan., p 39
- Applications for tong grabs in the steel industry
SCHMIDT, A. W. and PABICH, M. E., Feb., p 71
- Are mergers the answer for steel companies?
McMANUS, G. J., Nov., p 63
- Are straight-mold casters making a comeback?
McMANUS, G. J., Aug., p 62
- Armco equals, What AK plus
McMANUS, G. J., Aug., p 60
- Automatic surface inspection of sheet
McMANUS, G. J., Dec., p 51
- Automatic tagging identification of slabs and billets
ROBERTSON, J. A., O'NEAL, E. S. and ARIH Jr., W. N., Sept., p 60
- Automation of Dofasco's No. 3 electrolytic tinning line
UNSWORTH, D.F., MOFFATT, B. M., BARBON, M. and LEE, G., Oct., p 35
- Automation system for the new Ipsco mini mill, Highly integrated
D'AMICO, F., ANGELA, P. and PACKIAM, J., Aug., p 27
- Award, 1999 Project Excellence, Dec., p 52
- Award, AISE Reliability Achievement, Dec., p 57
- B
- Bar mills: a challenge for laser diameter gages, High-speed roll gap control in rod and
HOFMANN, K. and PALZER, O., Sept., p 42
- Bar rolling system at Tokyo Steel, Application of endless
MATSUO, G., OKAWA, S. and CHATTERJEE, R. K., Mar., p 27
- BarTech and Republic equal, What
McMANUS, G. J., Jan., p 58
- Beam blanks, Continuous casting of
DZIERZAWSKI, J. T., Sept., p 36
- Bearing currents A danger to inverter-fed a-c motors?
BINDER, A. J. F., AUST, R. P. and SCHREFFER, A., July, p 47
- Bearing life on continuous casters, Increasing
ELIOT, S. W., Dec., p 31
- Bearings, Corrosion-resistant antifriction
SMITEK, J. W., SPRINGER, T. E., SCHRAMA, R. C., MORRONE, A. S., RIBAUDO, C. R. and GIUSTI Jr., L. J., Dec., p 19
- Bethlehem gets maximum return from an investment, How
McMANUS, G. J., Sept., p 69
- Bethlehem reduces BOF hood scrubber energy at Burns Harbor, June, p 71
- Bethlehem Steel Sparrows Point, No. 1 halogen tinning line a-c drive conversion at
KROEBER, W. J., MAROFSKY, M. A. and HARRISON, A. J., Apr., p 43
- BHP Integrated Steel, Port Kembla, Re-automation of plate mill

- at CAREY, C., CHAPMAN, H. and ERKORU, H., Nov., p 27
- Biodegradability and toxicity of a high-performance water-glycol hydraulic fluid TOTTEN, G. E., WEBSTER, G. M. and BISHOP Jr., R. J., Dec., p 27
- Blast Furnace, Excerpt from The Making, Shaping and Treating of Steel: The Manufacture of Pig Iron in the BURGO, J. A., Nov., p 72
- Blast furnace, Reduced revamp duration at Chiba No. 6 FUJITA, M., KOJIMA, H., MARUSHIMA, H. and KAWAI, T., June, p 38
- Blast furnace operating practice at Sidmar, Installing copper staves and BONTE, L., DeLANGHE, H., DEPAMELAERE, M. and SPELEER, B., June, p 43
- Blast furnace reline, U.S. Steel s Edgar Thomson No. 1 POOLE, T. H. and SLOANE, G. P., June, p 35
- Blast furnaces, Upgrading hearth concepts for high-performance DUNCANSON, P. L. and DZERMEJKO, A. J., June, p 51
- Blast stove process model and model-based controller, Hot MUSKE, K. R., HOWSE, J. W., HANSEN, G. A., CAGLIOSTRO, D. J., CHAUBAL, P. C., QUISENBERRY, P. E. and WASHO, M. J., June, p 56
- BOF hood scrubber energy at Burns Harbor, Bethlehem reduces, June, p 71
- BOF trunnion drive shaft testing using ultrasonic multichannel C-scan imaging in real time PORTER, J. P. and MORRISON, J. W., May, p 45
- BOF trunnion pin, Estimated safe residual service life of a 29-year old HINTON, R. W., SCHACHT, C. A. and WEI, M. L., May p 35
- BOF vessel availability with a mini-cone and water-cooled lip ring, Increasing GARVIN, H. F. M., May, p 43
- BOP bottom bubbling practices at National Steel MARSH, R. C. and BLISS, B. J., Dec., p 40
- Breakout avoidance system, BASYS, for continuous slab casting SOWKA, E., SCHULZE-DIEKHOF, P., HARDER, J., MUNSCHER, F. and BEIRER, G., May, p 30
- Bubbling practices at National Steel, BOP bottom MARSH, R. C. and BLISS, B. J., Dec., p 40
- Buckle on sendzimir 20-h mills, Control of quarter TURLEY, J. W., POLLASTIRELLI, A. and BRECY, M., Mar., p 35
- Burner system and its application to walking beam reheat furnaces, Simulation of regenerative UEDE, M., SHIMADA, T. and IMADA, M., Apr., p 68
- C
- Calderon coking reactor, Evaluation of metallurgical coal blends in the STRAUSS, A. D. and GIUNIA, J. S., Jan., p 29
- Canton and Philadelphia Section meetings, Apr., p 82
- Capture and analysis of stress waves provides significant improvement in condition monitoring of critical rotating machinery STOBBE, D. M., PHILLIPS, M. and ROBINSON, J. C., July, p 25
- Caster at Voest-Alpine Stahl, Design and start-up of a single-strand slab EICHINGER, A., FELBERMAYER, E., STEINHAUSLER, M. and VIEBOCK, H., May, p 25
- Casters making a comeback?, Are straight-mold McMANUS, G. J., Aug., p 62
- Casting, Breakout avoidance system, BASYS, for continuous slab SOWKA, E., SCHULZE-DIEKHOF, P., HARDER, J., MUNSCHER, F. and BEIRER, G., May, p 30
- Casting, Environmental engineering in continuous FITZEL, H. O., STEGER, P. L. and GSTOTTENMAYR, A., Oct., p 32
- Casting of beam blanks, Continuous DZIERZAWSKI, J. T., Sept., p 36
- Chairmen, 1999 Iron and Steel Exposition^{II} and AISE Annual Convention, Sept., p 109
- Chaparral Steel: The new Virginia structural mill, TXI SAMWAYS, N. L., Oct., p 21
- Charging emissions control retrofit to a U-tube system at LTV s Chicago coke plant GRATSON, M. A., NAY, K. G., WASH, S. and SUNDHOLM, J. L., Mar., p 53
- Chatter on tandem cold mills and temper mills at LTV Steel, Analysis techniques and countermeasures for SILVERSTEIN, B. R. and ARTER, R. K., Sept., p 51
- Chatter problem solved using vibration analysis, Fifth-octave DONKLE III, L. B., Nov., p 40
- Chiba No. 6 blast furnace, Reduced revamp duration at FUJITA, M., KOJIMA, H., MARUSHIMA, H. and KAWAI, T., June, p 38
- Chicago section, Young engineers night at, Jan., p 65
- Chinese steel industry in the 21st century, Present and future status of the LI, S. and WANG, Z., Aug., p 56
- Cogeneration plant at U.S. Steel, Gary Works, A 161-Mw MORONEY, R. M. and OLSON, R. C., Dec., p 53
- Coke plant, Charging emissions control retrofit to a U-tube system at LTV s Chicago GRATSON, M. A., NAY, K. G., WASH, S. and SUNDHOLM, J. L., Mar., p 53
- Cokemaking at Sun Coke, Heat recovery WESTBROOK, R. W., Jan., p 25
- Cokemaking system, Thyssen Still Otto/PACTI nonrecovery BUSS, W. E., MERHOF, M. A., PIDUCH, H. G., SCHUMACHER, R. and KOCHANSKI, U., Jan., p 33
- Coking reactor, Evaluation of metallurgical coal blends in the Calderon STRAUSS, A. D. and GIUNIA, J. S., Jan., p 29
- Cold finishing facility at Rodport, AK Steel s 1.8 million ton/year carbon and stainless steel SAMWAYS, N. L., Apr., p 32
- Cold mill, Modernization of gage control system at Sumitomo Wakayama 5-stand MORI, Y., HITOTSUMATSU, E., ISHIBASHI, T., WASHIKITA, Y. and OKAMOTO, M., Aug., p 46
- Cold mill processes, Application of vibration monitoring to HARDWICK, B. R. and DUNLOP, T. S., Jan., p 39
- Cold mills, High tensile, light gage rolling with 20-h reversing FROHLING, A., RIECKMANN, J. and JAITA, J., Mar., p 41
- Cold mills and temper mills at LTV Steel, Analysis techniques and countermeasures for chatter on tandem SILVERSTEIN, B. R. and ARTER, R. K., Sept., p 51
- Cold mills chart different courses McMANUS, G. J., May, p 55
- Cold rolling, Selection of optimum mill configurations for GINZBURG, V. B., FANCHINI, R., BAKHTAR, F. A. and AZZAM, M., Nov., p 34
- Cold rolling mill, Modeling and optimization for a 20-h SCHNEIDER, A. and WERNERS, R., Mar., p 44
- Cold rolling mills, Model-supported flatness control systems for KERN, P., MEHLICH, F. and SCHUMACHER, J., Aug., p 38
- Collision-free pickup and movement of large objects DROTNING, W. D. and McKEE, G. R., Feb., p 75
- Combustion turbine combined-cycle technology, Integrated steel mill power production using LUESSEN, H. P. and WOODS,

- P. B., Apr., p 51
- Communication, Practical solutions for effective GATTO, R. P., Oct., p 48
- Condition monitoring of critical rotating machinery, Capture and analysis of stress waves provides significant improvement in STOBBE, D. M., PHILLIPS, M. and ROBINSON, J. C., July, p 25
- Conference Pictorial Review, Specialty Aug., p 100
- Conference Review, Specialty, Feb., p 109
- Conference Review, Mid Winter, May, p 72
- Conference Review, Specialty May, p 86
- Conference Review, Specialty June, p 94
- Conference Review, Specialty Sept., p 353
- Conference Review: Process Control for the Steel Industry A Practical Training Seminar, Specialty, Oct., p 75
- Configurations for cold rolling, Selection of optimum mill GINZBURG, V. B., FANCHINI, R., BAKHTAR, F. A. and AZZAM, M., Nov., p 34
- Continuous casting of beam blanks DZIERZAWSKI, J. T., Sept., p 36
- Control in rod and bar mills: a challenge for laser diameter gages, High-speed roll gap HOFMANN, K. and PALZER, O., Sept., p 42
- Control for tinplate process, Simplified optimal ENRIQUE, E. H. and MOFFATT, B. M., Oct., p 40
- Control of quarter buckle on sendzimir 20-h mills TURLEY, J.W., POLLASTRELLI, A. and BRECY, M., Mar., p 35
- Control system at Sumitomo Wakayama 5-stand cold mill, Modernization of gage MORI, Y., HITOTSUMATSU, E., ISHIBASHI, T., WASHIKITA, Y. and OKAMOTO, M., Aug., p 46
- Control system helps The Timken Co. maintain technological edge, Upgraded, May, p 59
- Control system in hot strip mill of North Star BHP Steel, New process IMANARI, H., TSUGENO, M., HIOKA, M., MARKWARD, S. W. and LEWIS, J., Aug., p 32
- Convention, 1999 Iron and Steel Exposition[®] and AISE Annual, Sept., p 75
- Convention Abstracts of Papers to be Presented at Technical Sessions, 1999 Iron and Steel Exposition[®] and AISE Annual, Sept., p 113
- Convention Chaimen, 1999 Iron and Steel Exposition[®] and AISE Annual, Sept., p 109
- Convention Exhibitor List, 1999 Iron and Steel Exposition[®] and AISE Annual, Sept., p 187
- Convention Technical Program, 1999 Iron and Steel Exposition[®] and AISE Annual, Sept., p 77
- Convention Pictorial Review, 1999 Iron and Steel Exposition[®] and Annual, Dec., p 58
- Corrosion-resistant antifriction bearings SMITEK, J. W., SPRINGER, T. E., SCHRAMA, R. C., MORRONE, A. S., RIBAUDO, C. R. and GIUSTI Jr., L. J., Dec., p 19
- Coupling fundamentals, Permanent magnet POST, R. S., Nov., p 54
- Crane runway girder reinforcement, Nonconventional MILMAN, R. S., Feb., p 68
- Crane wheel and rail interface KIVENSON, B. M. and EWING, W. A., May, p 51
- Cranes at Dofasco s central shipping complex, Inspection, analysis, repair and redesign of 32-ton stacker GULAS, M. A., BRIGNULL, D. P., STEWART, T. and CRISTIAN, F. L., Feb., p 62
- Cross-crafting as a reliability strategy CAREY, R. M., May, p 57
- D
- D-c: Which motor is right for you?, A-c or MELFI, M. J., June, p 73
- D-c furnaces, Excerpt from The Making, Shaping and Treating of Steel: Electrical considerations for a-c and BOWMAN, B., May, p 62
- Defect detection utilizing eddy current distancometer for steel strip, Severe TANAKA, K., FUKUTAKA, Y. and ANABUKI, Y., Sept., p 47
- Design and start-up of a single-strand slab caster at Voest-Alpine Stahl EICHINGER, A., FELBERMAYER, E., STEINHAUSLER, M. and VIEBOCK, H., May, p 25
- Development of new mini mill process: The NSR oxygen scrap melting process KOBAYASHI, N., Aug., p 61
- Developments in the North American iron and steel industry 1998 SAMWAYS, N. L., Feb., p 27
- Discharge to stormwater outfalls at a 75-year old steel mill, Eliminating process water CASPER, M. F., Oct., p 28
- Direct Reduction and Smelting Processes, Excerpt from The Making, Shaping and Treating of Steel: FEINMAN, J., June, p 75
- District Section Pictorial, May, p 76
- Dofasco s central shipping complex, Inspection, analysis, repair and redesign of 32-ton stacker cranes at GULAS, M. A., BRIGNULL, D. P., STEWART, T. and CRISTIAN, F. L., Feb., p 62
- Dofasco hot mill enhances predictability of process performance through ICAS HUNT, K. G., July, p 35
- Dofasco s No. 3 electrolytic tinning line, Automation of UNSWORTH, D.F., MOFFATT, B. M., BARBON, M. and LEE, G., Oct., p 35
- DRI, How Hylsa makes high carbon McMANUS, G. J., Mar., p 63
- DRI modules from U.K. to Alabama, Tuscaloosa Steel relocates CORBETT, M. J., HASSAN, H. H. and WARBURTON, A. K., June p 63
- Drives, Motor insulation survival with new adjustable frequency BELL, S. and SUNG, J., Apr., p 60
- Drives, Transducerless control of a-c flux vector GREEN, R. M., Apr., p 56
- Dynamics process: A new way to make iron, Iron LEHTINEN, L., HANSEN, J. and ROKOP, N., Dec., p 37
- E
- EAF statistics from IISI, Latest FRITZ, D., Nov., p 65
- Eddy current distancometer for steel strip, Severe defect detection utilizing TANAKA, K., FUKUTAKA, Y. and ANABUKI, Y., Sept., p 47
- Electrical considerations for a-c and d-c furnaces, Excerpt from The Making, Shaping and Treating of Steel, BOWMAN, B., May, p 62
- Eliminating process water discharge to stormwater outfalls at a 75-year old steel mill CASPER, M. F., Oct., p 28
- Emissions control retrofit to a U-tube system at LIV s Chicago coke plant, Charging GRATSON, M. A., NAY, K. G., WASH, S. and SUNDHOLM, J. L., Mar., p 53
- Endless bar rolling system at Tokyo Steel, Application of MAT-

- SUO, G., OKAWA, S. and CHATTERJEE, R. K., Mar., p 27
- Endless welding rolling process, The LESTANI, M. and POLONI, A., Mar., p 31
- Engineers Week, AISE salutes National, Feb., p 9
- Environmental engineering in continuous casting FITZEL, H. O., STEGER, P. L. and GSTOTTENMAYR, A., Oct., p 32
- Environmental enforcement: U.S. EPA increases enforcement activity, New developments in DISMUKES, S. R., Jan., p 54
- Environmental management system using ISO 14001 as a model, Establishing an NAKAMURA, L. M., Jan., p 51
- EPA increases enforcement activity, New developments in environmental enforcement: U.S. DISMUKES, S. R., Jan., p 54
- Establishing an environmental management system using ISO 14001 as a model NAKAMURA, L. M., Jan., p 51
- Estimated safe residual service life of a 29-year old BOF trunnion pin HINTON, R. W., SCHACHT, C. A. and WEI, M. L., May p 35
- Evaluation of metallurgical coal blends in the Calderon coking reactor SIRAUSS, A. D. and GIUNTA, J. S., Jan., p 29
- Excerpt from The Making, Shaping and Treating of Steel: Direct Reduction and Smelting Processes FEINMAN, J., June, p 75
- Excerpt from The Making, Shaping and Treating of Steel: Electrical considerations for a-c and d-c furnaces BOWMAN, B., May, p 62
- Excerpt from The Making, Shaping and Treating of Steel: The Manufacture of Pig Iron in the Blast Furnace BURGO, J. A., Nov., p 72
- Exhibitor List, 1999 Iron and Steel Exposition[®] and AISE Annual Convention, Sept., p 187
- Exposition[®] and AISE Annual Convention, 1999 Iron and Steel, Sept., p 75
- Exposition[®] and AISE Annual Convention Abstracts of Papers to be Presented at Technical Sessions, 1999 Iron and Steel, Sept., p 113
- Exposition[®] and AISE Annual Convention Chairmen, 1999 Iron and Steel, Sept., p 109
- Exposition[®] and AISE Annual Convention Exhibitor List, 1999 Iron and Steel, Sept., p 187
- Exposition[®] and AISE Annual Convention Technical Program, 1999 Iron and Steel, Sept., p 77
- Exposition[®] and Annual Convention Pictorial Review, 1999 Iron and Steel, Dec., p 58
- F
- Fan tipping, Maintenance, energy and environmental improvements: A unique result of OHRT, H. and MARTIN, V., Nov., p 59
- Fault zone analysis, Identifying motor defects through BETHEL, N. P., Apr., p 64
- Fifth-octave chatter problem solved using vibration analysis DONKLE III, L. B., Nov., p 40
- Filtration, Practical fluid power unit MUELLER, K. R., Dec., p 24
- Flatness control and bending systems improve product quality at U.S. Steel Fairless Works TRAUTWIG, H. J., CARNEVALE, F. and HANNAN, P., Aug., p 21
