

SAFETY AND HEALTH CONFERENCE

1-3 SEPTEMBER 2015
INDIANAPOLIS, IND., USA
INDIANAPOLIS, IND., USA

ABOUT THE PROGRAM

This conference will address new solutions to reinforce and improve safety and health initiatives at metal-producing facilities. These discussions will benefit not only facility personnel but also suppliers, vendors and contractors that visit these facilities. Topics include: maintenance work requests, fall protection, workplace violence and presentations from three of the 2014 Don B. Daily Memorial Fund Grant recipients. The objectives of the grant are to promote a safe workplace for the steel manufacturing industry, to increase the number of students who study health and safety awareness relative to the manufacturing environment, and to provide direct student interaction for awareness of the steel industry.

SCHEDULE OF EVENTS

TUESDAY, 1 SEPTEMBER 2015

4-6 p.m.

9 a.m.

MOBILE EQUIPMENT SAFETY

MALCOM DUNBAR, EDWY. C. LEVY CO.

The interaction of people and heavy mobile equipment remains one of the highest risks faced by the industry. This presentation will provide background on the scope, nature and description of the hazards created when this man and machine interface occurs. Suggested solutions designed to eliminate or control these hazards will be presented so as to lower the risk and improve the safety of working near heavy mobile equipment.
