

2013–2015 President

Frederick T. Harnack

Harnack earned a B.S. degree in mechanical engineering in 1976 and an M.B.A. in 1982, both from the University of Pittsburgh. Harnack began his career with United States Steel Corporation in 1976 as a management trainee at the slab mill at Mon Valley Works' Edgar Thomson Plant in Braddock, Pa., USA. After serving in various operating and maintenance positions at the slab mill and the former Homestead (Pa.) Works, he became area manager for maintenance at the Edgar Thomson slab mill in 1987. Later, he moved to Mon Valley Works' Irvin Plant in West Mifflin, Pa., USA, as area manager of galvanizing. From 1990 to 1993, Harnack was the operations consultant for the PROTEC Coating Co. in Leipsic, Ohio, USA, a joint venture between U. S. Steel and Kobe Steel of Japan. In 1993, Harnack

returned to the Mon Valley Works as the casting and rolling operating director. Harnack was named plant manager at the Edgar Thomson Plant in 1996 and advanced to general manager of Mon Valley Works in November 1999. In 2003, following the acquisition of assets of the former National Steel Corp., he was named general manager of Great Lakes Works near Detroit. In 2005, Harnack was named general manager — research, with responsibility for the company's research and development activities at the Research and Technology Center in Munhall, Pa., USA. He was appointed general manager — operational excellence in August 2008, and in January 2009 was named to his current position as general manager — environmental affairs. ♦
