

2015–2017 President

Steven S. Hansen

Steve Hansen served as vice president and chief technical officer for SSAB Americas from 2007 until his retirement in 2019. In this role, he had overall responsibility for all technical support activities at SSAB's North American steel plants and CTL lines, including quality assurance/quality control, applications engineering, continuous improvement, environmental, and research and development. After prior experience with Bethlehem Steel Corp., Hansen joined IPSCO in 2003 as director — technical

services, U.S. steel operations. In 2004, he was named corporate director — technical services, responsible for all steel plant and tubular technical activities. When IPSCO was acquired by SSAB in July 2007, Hansen was named to his current position. He is a graduate of the Massachusetts Institute of Technology with B.S., M.S. and D.Sc. degrees in metallurgy and materials science. He is a Distinguished Member and Fellow of AIIST, an Honorary Member of AIME, and a Fellow of ASM International.
