

2017–2019 President

Kolin L. Keller

As vice president, operations support, Commercial Metals Company, Seguin, Texas, Kolin Keller has responsibility for engineering, energy, safety, security, environmental and capital expenditures for Commercial Metals Company (CMC), U.S. Operations. Keller earned a B.S. degree in mechanical engineering from the University of Texas at Austin in 1984. As a youth, he worked in the CMC Steel Seguin mill, and after graduating from college he worked for Westinghouse Electric Corp. as a field engineer in the Power Generation Division. He returned to CMC

in 1988 and has worked in the Texas, Arkansas, and South Carolina mills in operations and management roles in the meltshop and rolling mill, and in maintenance, engineering, operations support, and plant management. Keller returned to the Texas mill in 2005 as the Commercial Metals Company Americas engineering manager. He was appointed to his current position in 2010. ♦
