

## CMC Steel Arizona

certainly followed through with their promise, “Commitment you can count on.” More than 160 team members showed up big for the AIST Road Show this past November. They all left with three things – full bellies, fun prizes and new knowledge about the benefits and opportunities AIST membership has to offer.

Director of operations – Steel, Gilbert Hutton, had much to say about what his affiliation with AIST has brought him. “I’ve been fortunate enough to have a relationship with AIST going back more than 20 years. My relationship with AIST has brought me nothing but professional benefit. It’s really helped me to expand and improve my networking throughout the steel industry in North America, and the access that I’ve had to technical papers and the ability we’ve had to solve technical problems through AIST has been fantastic. I would absolutely recommend [AIST membership] to anybody in our industry, especially young professionals entering our industry – be involved in AIST, it will bring you nothing but benefit.”

### Road Show Sponsors

Interested in hosting an AIST Road Show at your plant? Or want to find out our next stop in hopes to join us in showcasing your products and services to a captive audience of steel mill managers, operators and engineers? Contact [sales@aist.org](mailto:sales@aist.org).
