

## 2022 Iron &amp; Steel Technology Indexes

## AIST News and Miscellaneous

- 4th International Ingot Casting, Rolling and Forging (ICRF) Conference 2022 Program — February, p 141, March p 191; April, p 171; May, p 261; June, p 131
- 4th International Ingot Casting Rolling Forging (ICRF) Conference Recap — September, p 88
- 8th International Congress on the Science and Technology of Steelmaking (ICS) Conference Program — June, p 137; July, p 101; August, p 177
- 8th International Congress on the Science and Technology of Steelmaking (ICS) Recap — October, p 111
- 35-Year AIST Life Member: John T. Wilson — August, p 174
- 36-Year AIST Life Member: Thomas Battle — January, p 102
- 36-Year AIST Life Member: Pinakin Chaubal — December, p 146
- 2022 AIST Basic Oxygen Furnace Roundup — April, p 184
- 2022 AIST Board of Directors Award Winners — August, p 88
- 2022 AIST Canada and U.S. Long Products Roundup — September, p 116
- 2022 AIST Coke Oven Battery Roundup — March, p 164
- 2022 AIST Cokemaking Byproducts Roundup — March, p 172
- 2022 AIST Electric Arc Furnace Roundup — January, p 142
- 2022 AIST North American Blast Furnace Roundup — March, p 186
- 2022 AIST North American Cold Mill Roundup — February, p 148
- 2022 AIST North American Galvanizing Lines Roundup — February, p 132
- 2022 AIST North American Hot Strip Mill Roundup — November, p 112
- 2022 AIST North American Pipe and Tube Roundup — September, p 90
- 2022 AIST North American Plate/Steckel Mill Roundup — November, p 124
- 2022 AIST North and South American Continuous Caster Roundup — July, p 116
- 2022 AIST Specialty Alloy & Foundry Roundup — October, p 164
- 2022 AIST Town Hall Forum — August, p 55
- 2022 AIST William T. Hogan, S.J. Memorial Lecture Award — August, p 69
- 2022 Steelmaker of the Year Interview — August, p 83
- 2022–2023 AIST Board of Directors — June, p 38
- 2022–2023 AIST Foundation Scholarship Recipients — October, p 31
- 2022–2023 AIST Foundation Officers and Board of Trustees — October, p 24
- 2022–2023 Member Chapter Officers — November, p 86
- AIST President's Message — January, p 4; May, p 4
- AIST Board of Directors Awards — April, p 110; May, p 104
- AIST Foundation President's Message — October, p 24
- AIST Life Members — January, p 191
- AIST Membership Recognition — January, p 185
- AIST Technology Committees: 2022 Awards and 2022–2023 Officers — August, p 94
- AIST Virtual MENA Steel Forum 2021 Recap — February, p 83
- AISTech 2022: A Retrospective — August, p 43
- AISTech 2022 Descriptions of Exhibiting Companies — May, p 153
- AISTech 2022 Floor Plan — January, p 130; February, p 120; March, p 138; April, p 154; May, p 144
- AISTech 2022 Goggle Person: Sarah McCormick — May, p 88
- AISTech 2022 Information — May, p 91
- AISTech 2022 List of Exhibitors — May, p 147
- AISTech 2022 Preliminary Information — January, p 117; February, p 89; March, p 91; April, p 97
- AISTech 2022 Preliminary List of Exhibitors — January, p 133; February, p 123; March, p 141; April, p 157
- AISTech 2022 Preliminary List of Papers — February, p 103; March, p 104; April, p 114
- AISTech 2022 Technical Program — May, p 106
- AISTech 2023 Call for Papers — May, p 275; June, p 165; July, p 149; August, p 201
- AISTech 2023 Floor Plan — May, p 278; July, p 152; August, p 204; September, p 156; October, p 142; November, p 86; December, p 106
- AISTech 2023 Preliminary Information — December, p 95
- Back to Business: AIST's Leadership Conference in Full Swing — February, p 78
- Behind the Stories: Karin Lund Discusses Women in Steel, Women of Steel: Yesterday, Today and Tomorrow — August, p 111
- Call for Entries: Energy Achievement Award — February, p 147, April, p 8; June, p 10
- Call for Entries: Project Excellence Award — March, p 46; May, p 12
- Call for Entries: Reliability Achievement Award — January, p 190; March, p 162; May, p 5
- Call for Nominations: Board of Directors Awards — June, p 4; July, p 10; August, p 108; September, p 5; October, p 10; November, p 8
- Danieli 2021: Year in Review — February, p 86
- Developments in the North American Iron and Steel Industry: 2021 — April, p 85
- Inside the Cover: Atlas Tube — September, p 4
- Inside the Cover: 1915 Çanakkale Bridge — September, p 4
- Interview With 2022–2023 AIST President: Keith Howell, An — June, p 32
- Interview With P. Chris Pistorius: 2022 Brimacombe Memorial Lecturer — August, p 68
- Interview With Distinguished Member and Fellow: Chenn Zhou — October, p 153
- Interview With Kevin Zeik: 2021–2022 AIME President, An — October, p 158
- Modern Tools for Steelmaking Research and Optimization: 2022 AIST Brimacombe Memorial Lecture and AIME Keynote — August, p 60
- MS&T 21 Recap — January, p 106
- MS&T 22 Advance Program — August, p 189; September, p 116; October, p 115
- Road Show Recap — July, p 114; November, p 84
- Steel Industry's Largest Living Room Conversation: AIST's Town Hall Forum Turns Twenty, The — March, p 152
- Virtual 2021 European Steel Forum Recap — January, p 108

## Technical Articles

### #

- 100% In-Process Compositional Testing Using X-Ray Fluorescence (*Digital Transformations*) — A. Thurston, September, p 42
- 30+ Year Campaign of IJmuiden Blast Furnace No. 6 — F. Kerkhoven, J. Stuurwold, G. Tijhuis, B. Nugteren and R. Van Laar, March p 70

### A

- About the Role of Previous Work Hardening in Structure and Properties Formation of Low-Carbon Steel Wire During Recrystallization Annealing (*AIST Transactions*) — V.V. Kaverinsky, G.A. Bagliuk and D.G. Verbylo, August, p 232
- Addition of Scrap and DRI/HBI to the Blast Furnace — Technology to Overcome Top Temperature Limits and Reduce Greenhouse Gas Emissions — I. Cameron, D. Tu, M. Sukhran and J. Woloshyn, March, p 80
- Additive Manufacturing (*Digitalization Applications 101*) — D. Presta, March, p 32
- Analysis of Heat Loss in Oxygen Steelmaking (*Digital Transformations*) — N. Madhavan, G.A. Brooks, M.A. Rhamdhani, B.K. Rout, F.N.H. Schrama and A. Overbosch, April, p 42
- Application Bottleneck and Optimization of Big Data Technology in Blast Furnace Ironmaking — Y. Deng, R. Liu, Q. Lyu, F. Long Liu and L. Yuan Hao, December, p 64
- Application of Virtual Reality Simulation as a Tool for Safety-Related Training in the Steel Industry (*Safety First*) — F. Ramstorfer, S. Braz da Silva, L. Gaspar da Silva, V. Halty Rivero, B. Lopes Xavier and L. Martins Demuner, September, p 30
- Approach to Successful Production of Very-Low-Carbon High-Strength Galvanized Dual-Phase Steels Through a CSP Flex Mill — S. Bhartiya, V.S.Y. Injeti, C. Mahimkar, M. Bishop, D. Hennessy, C.M. Enloe and A.K. De, February, p 44
- Assessment of a Methodology to Measure Carbon Footprint and Support Decision-Making Process in a Company's Supply Chain — G.B. Gilberti, E.J.S. Filho and T.L. Carreira, June, p 104
- Assessment of State-of-the-Art Offgas Sensor Technology for Process Control in Steel Combustion Furnaces, An — K. Grieshaber and E. Huelson, April, p 58
- Assessment of Ultralow-NOx Combustion Technology for the Steel Industry, An — J. Dzik, June, p 98
- Augmented Reality (*Digitalization Applications 101*) — E. Almquist, April, p 38
- Automatic Pilot for Strip Processing Lines (*Digital Transformations*) — E. Menigault, P. Rocabois, M. Monnoyer, A. Ollagnier, A. Fiorini, S. Pantarotto and A. Ferraiuolo, February, p 36
- Autonomous Robotics (*Digitalization Applications 101*) — M. Liddick, A. Smolinski and J. Vrzal, May, p 42
- Autonomous Trimming and Sampling of Wire Rod Coil Head and Tail (*Digital Transformations*) — J.P. Nylander and A. Ambra, December, p 38

### B

- Bath Level Management in the Consteel DC Electric Arc Furnace — P. Quiney, K. Fitch, P. Turner and L. Meads, January, p 72
- Blast Furnace Flame Temperature Calculation Improvements — J.W. Busser, March, p 60

- Building a Scalable Intelligent System to Advise Predictive Maintenance Operations in a Steel Mill — A. Sahu, R. Chahar, S. Olivar, R. Balasubramanian, A. Gupta and H. Ahn, May, p 44

### C

- Case Study: "I Choose to Take 2 for Safety" (*Safety First*) — T. Hallock and J. Zwick, March, p 24
- Cloud Computing (*Digitalization Applications 101*) — P.J. Gallagher, February, p 32
- Comparison of the Dynamics, Mixing Efficiency and Ladle Wall Wear in Gas-Stirred Laddles, A — P.K. Shivaram, M. Gruber and T. Spudic, July, p 90
- Crane Girder Deformation Mapping Using Image Processing and Template Matching of Laser Scanner Point Cloud — S. Deshpande, M. Falk and N. Plooster, August, p 166
- Cutting-Edge Process Technologies to Enhance Electrical Steel Performances — C. Moukarzel, February, p 62
- Cybersecurity (*Digitalization Applications 101*) — S. Christensen, J. Boren and N. Smith, June, p 58

### D

- Detection of Stirring at Low Flowrates Using Acoustic Sensors — R. Vasant Kadam, G.A. Brooks, M. Dunn and D. Sly, December, p 82
- Development of ARMSS: Augmented Reality Maintenance and Safety System (*Safety First*) — J. Moreland, N. Zhu, M. Changoluia, L. Raygadas-Lara, G. Page, Y. Krotov and C. Zhou, January, p 32
- Development of Nanoprecipitation Strengthened Cold-Rolled Batch-Annealed HSLA Sheet Steels (>490 MPa Yield Strength) With Superior Formability — S. Biswas, B. Chen, S. Bhartiya, V.S.Y. Injeti, M. Sexton and A.K. De, October, p 60
- Digital Optimization of Refractory Maintenance (*Digital Transformations*) — N. Mutsam, F. Pernkopf and G. Lammer, July, p 42
- Dynamic EAF Energy and Material Balance Model for On-Line Process Optimization (*Digital Transformations*) — S. Abraham, Y. Wang, R. Petty, T. Sprague, T. Franks and E. Brown, January, p 48

### E

- Edge Computing (*Digitalization Applications 101*) — D. Kober, January, p 44
- Effect of Plate Rolling Strategy and Nb Microalloying in the HAZ Performance After Welding — P. Uranga, N. Isasti, J.M. Rodríguez-Ibabe, N. Ishikawa, D. Izumi, D. Stalheim, D. Jarreta and D. Martin, November, p 60
- Effective Utilization Techniques for Coal Having High Maximum Fluidity Based on Unique Permeation Distance Evaluation — Y. Dohi, K. Fukada, T. Matsui, T. Yamamoto, M. Nagayama, D. Igawa, I. Akishika, H. Sumi and I. Shimoyama, March, p 48
- Endpoint Phosphorus Content Prediction in BOF Steelmaking Using PCA-Based Support Vector Regression (*AIST Transactions*) — S. Mukherjee, S. Barui and K. Chattopadhyay, April, p 206

- Enhanced Digital Twin Solution for Continuous Casting — K. Toth, Y. Fei, A. Zafar, C. Zhou, N. Gregurich and L. Yakovleva, December, p 56
- Environment Defines Productivity: Emission Control System Modification Using Fluid Dynamic Study of Building Ventilation at Sinobras Meltshop, Brazil — J. Belous and M. Lima, May, p 74
- Experience of Blowing-In and Production Ramp-Up of the Largest Blast Furnace of India — S. Rai, B.K. Nayak, B. Bag and D.R. TM, May, p 52

---

## F-H

- Fall Protection Standards — A Global Snapshot (*Safety First*) — R. Mann, June, p 50
- Formation and Distribution of Ti(C,N) to Prevent Blast Furnace Refractory Wear, The (*AIST Transactions*) — S. Thomas Britt and P. Chris Pistorius, May, p 292
- Foundation for Data Analytics in Manufacturing Using ibaPDA and Open-Source Machine-Learning Tools, A — M.M. Cardoso, December, p 88
- Fully Automated In-Line Strand Condition Monitoring for Enhanced Roll Gap Measurement and Control in Continuous Casting (*Digital Transformations*) — G. McBain and W. Smailes, October, p 56
- How to Eliminate Missed Problems and False Alarms Using Machine Learning for Vibration Monitoring and Analysis — B. Li, A. Lauden, J. Davis and K. Stohl, August, p 136
- How U.S. Steelmaking Became a Green Industry and What Lies Ahead (Perspectives) — F. Memoli, June, p 66
- Hydrogen-Based DRI EAF Steelmaking — Fact or Fiction? — S.A. Hornby, January, p 60

- 
- Identification of Microstructural Constituents Based on Hardness Measurements Results — D. Tsvetkov and J. Tripathy, October, p 94
- Implementation of the Tilttable Sidewall Burner at Nucor Steel Tuscaloosa Inc.: Dynamically Adjustable Burner Angle to Optimize Scrap Melting and Reduce Refractory Wear — J. Novotny, R. Junkin, M. Mayhall, J. Franks, P. Baker, P. Hansert and F. Goekce, January, p 92
- Importance of Roll Oxide to Increase Roll Life in a Hot Rolling Mill — S. Flament, H. Uijtdebroeks, G. Walmag and Z. Koont, November, p 70
- Importance of Simulation and Modern Logistics in Project Management (*Digital Transformations*) — R. Petty, J. Rajagopalan, J. Suksi and S. Katkanaho, August, p 120
- Improving Safety Conditions in the EAF (*Safety First*) — F.N. Díaz and V.E. Guíñez Palacios, November, p 28
- Improvement of Centerline Segregation at United States Steel Corporation's Gary Works No. 2 C-Line Continuous Caster — E.J. Serrano, S. McCann, W. Schlichting, M. Keel, C. Paynes, M. Liedtke, T. Natarajan, B. Flanigan, C.C. Tomazin, M. Knights and M. Fornasier, July, p 82
- Improvement of Performances of Cold Heading Quality Wire Rod Produced by HBIS Chengsteel Works — A. Mollo, B. Wang, G. Pratolongo and A. Di Salvo, September, p 70
- Improvement of Work Safety and Reduction of Environmental Issues With Fire-Resistant Lubricants in Steel Plants (*Safety First*) — R. Knecht, December, p 30
- Increased Safety and Performance of BOF Relining at Ternium Brasil — L. Demuner, B. Voraberger, W. Correa and G. Wimmer, April p 76

- Innovative Surface Inspection System Deployment — L. Zhang, A. Perrichon, L. Alberto De Oliveira Martins, B. Masters, B. Feagan and B. Isbell, September, p 78
- Investigation of Grounding Failures in Transformers and Evaluation of Best Practices — R. Khajjayam and H. Pathak, September, p 60
- Investigation of Optimal Continuous Casting Conditions for Superior Steel Cleanliness — B. Konar, J. Saroop and S. Chen, July, p 70
- Investigation on Flying Tundish Change and Separation Plate Using Micro-X-Ray Fluorescence at ArcelorMittal Dofasco's No. 1 Continuous Caster — J. Leung and M. Kha Trinh, July, p 52

---

## L-N

- Lightweight Work Roll Flattening Model for Severe Rolling Conditions — B. Braho and R.P. Schaeffer, February, p 56
- Machine Learning for Blast Furnace Productivity Improvement at Jindal Steel and Power Angul (*Digital Transformations*) — A. Gandhi, R. Mishra, A. Fadnis, R. Jaiswal, S. Mishra and A. Sircar, March, p 36
- Machine-Learning Model for Hydrogen Content Estimation During the Vacuum Degassing Process — M. Argáez-Salcido, N. Sánchez, A. Alvarez and D. Alvarado, December, p 74
- Maintenance Practices of Gas Analyzers in Steel Industry — A. Garg and P. Basur, August, p 60
- Managing the Impact, Assessment and Application of Solutions for Combustible Dust Mitigation and Control in Modern Manufacturing Environments — S. Shipp, June, p 114
- Mastering Fully Automated Steelmaking — R. Stadlmayr and C. Stangl, April, p 66
- Mathematical Model of Static and Dynamic Recrystallization, Roll Force and Mean Flow Stress of the Nb-Microalloyed Steels for Plain Steel Hot Roughing Mill (*Digital Transformations*) — M.L.P. Machado and J.G. Santos, November, p 36
- Metallurgical Strategy for Optimized Production of QT High-Strength and Abrasion-Resistant Plate Steels — D. Stalheim, October, p 98
- Methodology for Fatigue Life Assessment of a Converter ID Fan Impeller Using the Finite Element Analysis Method: A Case Study — A. Schiavon Perez Ortigosa, June, p 124
- Micropelletization of Ironmaking and Steelmaking Dust and Recycling of the Micropellets — N. Ma, W. Sammon and M. Andrade, May, p 50
- Microstructural Evolution of Two Automotive Steels Induced by Warm Forging and Subcritical Annealing — W. Hormaza, C.A.S. Oliveira, G.M. Castro Güiza and L.M. Méndez Moreno, October, p 92
- Modern Blast Furnace Top Gas Cleaning: Wet Separation Improvements at U. S. Steel – Great Lakes Works B2 Blast Furnace — J-L. Kuffer, J. Quick and C. Davidi, May, p 60
- New Advancements in Condition Monitoring Technology to Enhance Steel Mill Productivity and Profitability — T. Hlade and T. Hurley, August, p 82
- New System for Highly Efficient Power Input to Arc Furnaces Causing Minimum Network Disturbances — S. Bhatt, H. Pathak, W. Hoerger, R-H. Backes, M. Geijer, T. Rosenzweig, T. Matschullat, A. Kanagala, January, p 84
- New Thermoplasticity and Adhesiveness Measurement of Coal Based on Permeation Behavior and Wettability of the Softened Grains — I. Akishika, D. Igawa, M. Nagayama, K. Fukada, T. Matsui, H. Fujimoto, Y. Dohi, T. Yamamoto, H. Sumi and I. Shimoyama, March, p 54
- Novel Method for Stirring BOF Melts in Conjunction With Slag Splashing — A. Makwana, A. Sane, X. He and G. Buragino, April, p 50

Numerical Investigation of Decarburization Reaction Characteristics in Electric Arc Furnace Steelmaking Process — Y. Chen, Y. Wang, G. Tang, A. Silaen, K. Vanover and C. Zhou, January, p 76

## O-P

Optimization of Aluminum Deoxidation Practice in the Ladle Furnace (*AIST Transactions*) — K. Kumar Sahoo and R. Kumar Pathak, July, p 162  
 Overhead Crane No-Fly Zones Minimize Collisions With Machinery and Structures When Operators Are Distracted (*Safety First*) — S. Lubeck and J. Lubeck, April, p 28  
 Perspectives on Maximizing Strengthening Mechanisms in Automotive HSLA Steel (*AIST Transactions*) — C.M. Enloe, F. D'Aiuto and H. Mohrbacher, January, p 204  
 Practical Overview of Augmented Reality (AR) for Worker Development, Safety and Skills Retention — E. Almquist, December, p 46  
 Prediction Model of Hot-Rolled Coil Temperature and Phase Transformation Applied Local Heat Flux Considering Coil Shape — Y. Sano, K. Yamashita, M. Kobayashi, H. Takahashi and K. Fukushima, October, p 102  
 Production of Steel Heavy Plates Up to 100 mm by TMCP With Accelerated Cooling at NLMK DanSteel — E. Goli-Oglu and Z. Greisen, October, p 74  
 Production of X70 Discrete Plate Using MUPPIC — D. Bai, C. Rawlinson, K. Hodges and I. Robinson, September, p 48

## R

Radar-Based Collision Avoidance Between Multiple Levels of Cranes in a Meltshop (*Safety First*) — F. La Bruna, July, p 30  
 Reduction of Transverse Corner Cracks During Continuous Casting of Slabs — Y. Wang, M. Haberkorn, D. Brown, S. Abraham and R. Petty, July, p 60  
 Review of the Economic and Environmental Fundamentals of Selecting Heat Recovery for Combustion Systems in the Steel Industry, A — D. Quinn, May, p 66

## A

Abraham, S.; Brown, D.; Haberkorn, M.; Wang, Y.; and Petty, R. — Reduction of Transverse Corner Cracks During Continuous Casting of Slabs, July, p 60  
 Abraham, S.; Wang, Y.; Petty, R.; Sprague, T.; Franks, T.; and Brown, E. — Dynamic EAF Energy and Material Balance Model for On-Line Process Optimization (*Digital Transformations*), January, p 48  
 Ahn, H.; Gupta, A.; Balasubramanian, R.; Olivar, S.; Chahar, R.; and Sahu, A. — Building a Scalable Intelligent System to Advise Predictive Maintenance Operations in a Steel Mill, May, p 44  
 Akishika, I.; Igawa, D.; Nagayama, M.; Yamamoto, T.; Matsui, T.; Fukada, K.; Dohi, Y.; Sumi, H.; and Shimoyama, I. — Effective Utilization Techniques for Coal Having High Maximum Fluidity Based on Unique Permeation Distance Evaluation, March, p 48  
 Alberto De Oliveira Martins, L.; Perrichon, A.; Zhang, L.; Masters, B.; Feagan B.; and Isbell, B. — Innovative Surface Inspection System Deployment, September, p 78

Robotic Workstation for Safe Ladle Sliding Gate Maintenance (*Digital Transformations*) — G. Maccani, June, p 62  
 Role of Microstructure and Texture Synergy on Low-Temperature Toughness of Heavy-Gauge Line Pipe Steels — J. Su, M. Gaudet, M. Rashid and M. Arafin, October, p 84

## S-T

Safe, Fast and Cost-Effective Caster Roll Change at SDI Butler — T. Smith, J. Hook and H. Pattison, August, p 128  
 Safety Innovation for Steel Mill Ladle Access (*Safety First*) — J. Kemper, C. O'Connell, B. Kendall and D. Ferguson, February, p 26  
 Safety Precautions for Roll Spalling Events (*Safety First*) — L. Kish, May, p 34  
 SDI Heartland Temper Mill Stand Motor and Drive Replacement — T. Richards, G. Sindors and N. Carpenter, May, p 84  
 Shooter 4.0 — A Prototype for Intelligent and Autonomous Gunning Maintenance — N. Mutsam, G. Lammer, R. Lanzenberger and D. Beish, August, p 156  
 Slips, Trips and Falls Amongst Professional Drivers (*Safety First*) — A. Erin, August, p 32  
 Strip Steering Control — A Cutting-Edge Technology for Hot Strip Mills (*Digital Transformations*) — O. Jepsen, C. Mengel and M. Breuer, November, p 40  
 Turn-Up and Turn-Down Analysis at Roughing Mill Vertical Scalebreaker — N. Legrand and R. Bathla, November, p 48

## U-Z

Understanding System Safety (*Safety First*) — M. Dunbar, October, p 42  
 Various Strategies for the Distribution of Reductions in the Finishing Stands of a Hot Rolling Mill — E. Nikitenko, November, p 78  
 Virtual Reality Simulator for Portable Fire Extinguisher Training — J. Heffron, C. Zhang, J. Moreland, K. Toth, A. Hiller, J. Mitchell, R. Britton, S. Borzych and C. Zhou, February, p 70  
 Work Roll Bearing Grease Selection — Going Beyond the Data Sheets — K. Kishore Mistry and M.D. Allega, August, p 150

## Author Index

Allega, M.D., and Kishore Mistry, K. — Work Roll Bearing Grease Selection — Going Beyond the Data Sheets, August, p 150  
 Almquist, E. — Practical Overview of Augmented Reality (AR) for Worker Development, Safety and Skills Retention, December, p 46  
 Almquist, E. — Augmented Reality (*Digitalization Applications 101*), April, p 38  
 Alvarado, D.; Alvarez, A.; Argáez-Salcido, M.; and Sánchez, N. — Machine-Learning Model for Hydrogen Content Estimation During the Vacuum Degassing Process, December, p 74  
 Alvarez, A.; Argáez-Salcido, M.; Sánchez, N.; and Alvarado, D. — Machine-Learning Model for Hydrogen Content Estimation During the Vacuum Degassing Process, December, p 74  
 Ambra, A., and Nylander, J.P. — Autonomous Trimming and Sampling of Wire Rod Coil Head and Tail (*Digital Transformations*), December, p 38  
 Arafin, M.; Rashid, M.; Gaudet, M.; and Su, J. — Role of Microstructure and Texture Synergy on Low-Temperature Toughness of Heavy-Gauge Line Pipe Steels, October, p 84

Argáez-Salcido, M.; Sánchez, N.; Alvarez, A.; and Alvarado, D. — Machine-Learning Model for Hydrogen Content Estimation During the Vacuum Degassing Process, December, p 74

Statement of Ownership, Management and Circulation (Required by 39 U.S.C. 3685)

1. Title of publication: Iron & Steel Technology	15. Extent and nature of circulation	Average No. Copies of Single Issue	Actual No. Copies
2. Publication No.: 1547 – 0423	Each Issue	Published	
3. Date of filing: September 1, 2022	During Preceding 12 months	Nearest to Filing Date	
4. Frequency of issue: Monthly			
5. No. of issues published annually: 12			
6. Annual subscription price: U.S., Canada and Mexico—US\$170.00 All other countries—US\$215.00	A.Total No. of copies printed (net press run)	10,415	9,286
7. Location of known office of publication: 186 Thorn Hill Road, Warrendale, PA 15086	B.Paid circulation Mail subscriptions	7,183	7,197
8. Location of the headquarters of general business offices of the publisher: 186 Thorn Hill Road, Warrendale, PA 15086	C.Total paid distribution	10,151	8,982
9. Names and addresses of publisher, editor and managing editor: publisher, Ronald E. Ashburn; editor, Amanda L. Blyth; managing editor, Jennifer M. Vergot, 186 Thorn Hill Road, Warrendale, PA 15086	D.Non-requested distribution by mail, carrier or other means. Samples, complimentary and other free copies	121	116
10. Owner: Association for Iron & Steel Technology, 186 Thorn Hill Road, Warrendale, PA 15086	E.Total non-requested distribution	164	205
11. Known bondholders, mortgagees and other security holders owning or holding 1% or more of total amount of bonds, mortgages or other securities: None	F. Total distribution	10,315	9,187
12. For completion by non-profit organizations authorized to mail at special rates (Section 423.12 DMM only): The purpose, function and non-profit status of this organization and the exempt status for federal income tax purposes have not changed during preceding 12 months.	G.Copies not distributed Office use, leftover, unaccounted, spoiled after printing	100	100
	H.Total net press	10,415	9,287
	I. Percent paid and/or requested circulation	98.42%	97.78%
I certify that the statements made above are correct and complete.			
		Amanda L. Blyth, editor
