

ATTENTION MATERIALS SCIENCE AND ENGINEERING MAJORS!

What's next after graduation? Are you hoping for a job in an industry full of innovation? Do you want to be part of a manufacturing environment that provides hands-on experience and contribute to projects that make a difference?

Look no further — the STEEL INDUSTRY is for you!

Start taking steps toward your potential career path today by getting involved with the Association for Iron & Steel Technology (AIST)!

What Is AIST?

A global non-profit organization that represents an incomparable network of steel industry knowledge and expertise. Spanning 70 countries, AIST is comprised of 18,500 members that strive to advance the technical development, production, processing and application of iron and steel.

Translate Your Classroom Learning Into Real-World Experience

Personal and professional development made easy! There's plenty of opportunity awaiting with AIST's Steel to Students Training Program:

Learn From the Experts

Receive free registration and travel reimbursement for attending AIST's Technology Training Conferences.

Network With Professionals

Attend an AIST Member Chapter meeting with your student peers and professors for free.

Get Industry Exposure

Collect travel reimbursement for touring a local steel plant to see the steelmaking process up close.

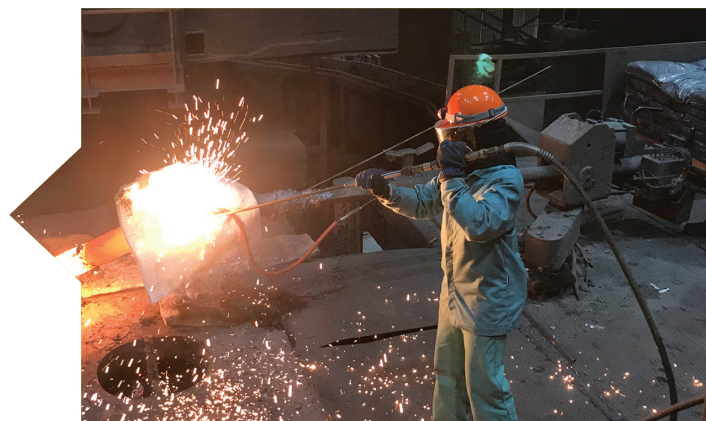

Earn Dinner on Us!

Redeem funding for snacks and refreshments at eligible student meetings on campus.

"I think the AIST scholarships and the Steel to Students Training Program are great — it is almost impossible to turn down opportunities like these! I also think that it's important for students to understand that the steel industry is evolving with new technology in the mills — the stereotype of it being old and outdated is far from the truth. We have robots, automation, etc. There is such a variety of jobs in the steel industry, almost anyone can find a role that suits them."

— Audrie Corral, materials science and engineering student, Virginia Tech

There is MONEY ON THE LINE!

Scholarships

The AIST Foundation awards more than US\$400,000 annually in scholarships in hopes to increase the number of students electing to pursue careers in the iron and steel industry.

Steel Intern Scholarships *(more than 30 available)*

- Paid summer internship at a North American steel company followed by a US\$7,500 scholarship.

Member Chapter Scholarships

- 14 of AIST's Member Chapters offer scholarships of varying amounts and quantities.

Contests

The AIST Foundation sponsors three major contests for high school, undergraduate and graduate students:

- AIST Foundation Real Steel Video Contest
US\$3,000 Grand Prize Winner
- Undergraduate Student Project Presentation Contest
US\$1,500 Grand Prize Winner
- Graduate Student Poster Contest
US\$1,500 Grand Prize Winner

Find your niche in Material Advantage...

AIST partners with three other distinguished professional societies to create a program for students studying materials science and engineering. Material Advantage provides a single, low-cost membership and access to all four associations:

More than 100 universities around the world have Material Advantage chapters. Join the community of like-minded students today and create a network of contacts that will support you for years to come!

Visit **MaterialAdvantage.org** for more information.

Learn more about student opportunities and apply for scholarships today at **AIST.org/students.**
