MONTANA TECH IRON AND STEELMAKING DAYS

FEBRUARY 16TH & 17TH, 2027

OPEN TO ALL MONTANA TECH STUDENTS

Montana Technological University Student Union Building

An engaging educational event designed to introduce students to the science, technology, and career opportunities in iron and steelmaking and related industries.

EVENT HIGHLIGHTS:

- Lectures from industry professionals
- Roundtable discussion with students, faculty, and industry professionals to delve into " What is the industry looking for in their workforce?"
- AIST student opportunities (scholarships and internships) presentation
- Laboratory demonstrations
- Social hour and lunch with industry professionals
- Industry partner info sessions and mini career fair

WHY ATTEND:

- Learn about iron and steelmaking (the most produced metal, second-highest employer of engineers and skilled trades persons)
- Connect with industry professionals and faculty
- Discover pathways to get most of your education experience
- Gain insight into skills needed to become successful after school
- Explore scholarship, internship, and employment opportunities
